## Chapter 1

# Presentation

---

In the realm of tabletop role-playing games, Eidos stands as a unique and innovative addition to the genre. Rooted in open-source principles, this game is designed to be both immersive and accessible...

The character creation process in Eidos is a deep and engaging experience, allowing players to build their characters from the ground up. With character sheets devoted to personality, religion, physical description, background, clothing, equipment, and skills, players have the tools to create a truly unique and memorable character.

The combat system in Eidos is designed to be immersive and engaging, with mechanics that are designed to create dynamic and exciting combat scenes. The game's mechanics are based on classic combat narratives, and the system strives to be a simulation of combat rather than simply a turn-based dice-rolling game. The standard rules are designed to be played in a pre-modern low-fantasy setting, but

the game is easily adaptable to other role-playing scenarios.

This rulebook is divided into six chapters, each of which covers a different aspect of the game. Chapter 1: Character Creation provides a detailed guide to creating your character, including sections on personality, religion, physical description, background, clothing, equipment, and skills. Chapter 2: Combat and Combat Resolution covers the mechanics of combat in Eidos, including basic combat mechanics, ability checks, skills, tactical maneuvering, environmental interaction, morale, reinforcements, ranged combat, unarmed combat, weapon mechanics, grappling, healing, shields and armor, mounted combat, naval combat, aerial combat, siege weapons, traps, stealth, mass combat, and death and dying.

Chapter 3: Survival Mechanics covers the mechanics of survival in Eidos, including food and water requirements, shelter, scavenging, travel, and exploration. Chapter 4: Character Injuries and Health provides a comprehensive guide to character injuries and health, including damage and wound mechanics, healing and recovery, status effects, and advanced injuries and trauma.

Chapter 3: Survival Mechanics covers the mechanics of survival in Eidos, including food and water requirements, shelter, scavenging, travel, and exploration. Chapter 4: Character Injuries and Health provides a comprehensive guide to character injuries and health, including damage and wound mechanics, healing and recovery, status effects, and advanced injuries and trauma.

Chapter 5: Game Master Tools provides a guide to running Eidos games, including world-building, NPC generation, encounters, group dynamics, movement and travel, encounter generation, and campaign management. Chapter 6: Optional Rules and Variants covers alternative systems for combat, magic, and skills, as well as advanced mechanics for

character development and progression and rules for playing in different settings and genres.

In conclusion, Eidos is an open source tabletop RPG system that offers a unique and engaging narrative experience, with mechanics that are designed to create immersive and exciting combat scenes. With its deep character creation process, engaging combat mechanics, and comprehensive survival mechanics, Eidos is a game that offers endless possibilities for players to explore and experience.

## Chapter 2

# Personality

---

Most of this part will be based on [Ash's Guide to RPG Personality & Background](<https://www.ashami.com/rpg/>). Of course, some modifications will be needed to fit his tables into the system...

### 2.0.1 Primary Motivators

The first step in crafting a character's personality is selecting their primary and secondary motivators. These motivations serve as the driving force behind a character's actions and decisions, shaping the narrative of their journey. The primary motivator is particularly important, as it acts as the primary catalyst for a character's backstory and personality. It is the underlying theme of a character's motivations, guiding their behavior and propelling them forward.

When choosing these motivations, it's important to consider what your character wants most in the world. Is it wealth, power, love, revenge, or something else? By focusing on these motivations, players can ensure that their character's actions feel authentic and grounded in their personal desires. Whether facing challenges in combat or navigating complex social situations, characters driven by strong motivators will always have a clear direction and purpose.

1. **Achievement** To overcome obstacles and succeed; to become the best.
2. **Acquisition** To obtain possessions/wealth.
3. **Adoration** To be cherished, admired, and wanted by others.
4. **Balance/Peace** To bring all things into harmony and equilibrium.
5. **Beneficence** To protect the helpless, heal the sick, feed the hungry, etc.
6. **Chaos** To disrupt, to cause confusion and discord.
7. **Competition** To seek out or create rule-based win/lose scenarios; to defeat others in contests.
8. **Conflict** To seek out or create rivalry, fighting, or animosity.
9. **Conquest** To conquer other peoples, to bring them into one's own culture/rule.
10. **Corruption** To despoil, ruin, humiliate, or make depraved.
11. **Creation** To build or make new, such as art, culture, invention, design, etc.
12. **Destruction** To annihilate, exterminate, and unmake.
13. **Discovery/Adventure** To explore, uncover mysteries, and pioneer.
14. **Domesticity** To get married, have children, and live a family life.
15. **Education** To provide information, teach, enlighten, or train.

16. **Entertainment** To entertain, amuse, and delight others.
17. **Enslavement** To force others into servitude.
18. **Hedonism** To enjoy all things sensuous.
19. **Heroism** To find valor and honor through battle or self-sacrifice.
20. **Liberation** To free the self and/or others from perceived captivity or enslavement.
21. **Love** To experience/share affection and emotional commitment, romantic or platonic.
22. **Nobility/Honor** To exalt ideals such as generosity, honesty, bravery, and courtliness.
23. **Order** To arrange, organize, and reduce chaos.
24. **Play** To have fun, to enjoy life.
25. **Power** To control and lead others.
26. **Proselytization** To spread a belief system; indoctrinate others.
27. **Purity** To achieve a state of moral or spiritual perfection, of self and/or others.
28. **Rebellion** To fight against power structures; to undermine authority.
29. **Recognition** To gain approval, social status, or fame.
30. **Service** To follow a person, government, order, religion, etc.
31. **Torment** To inflict pain and suffering, on others and/or the self.
32. **Understanding** To seek knowledge or wisdom (spiritual, scientific, magical, etc).
33. **Vice** To enable or engage in self-destructive behavior.

## 2.0.2 Dispositions

Disposition is an important aspect of character creation that provides depth and dimension to your character's personality. It allows you to understand how your character is likely to react emotionally to different situations, as well as how they appear to others. This trait helps you create a believable and relatable character, giving them an emotional landscape that makes sense within the context of the story.

When determining your character's emotional disposition, it is important to keep in mind that it is not necessarily limiting. It simply provides a baseline for how your character is likely to feel at any given moment. A character with a predominantly cheerful disposition may still experience moments of sadness, anger, or anxiety, but they will be more likely to return to their cheerful state after those moments have passed.

It is also important to note that emotional disposition should not be equated with alignment. A character's disposition can exist independently of their moral or ethical alignment, and it is possible for a character to be joyfully evil or angrily good. Understanding your character's disposition will help you make decisions about their emotional reactions, but it is just one aspect of the complex and multifaceted personality that you are creating.

1. Joyful
2. Anxious
3. Melancholy

4. Curious
5. Calm
6. Angry
7. Contemptuous
8. Excited
9. Apathetic
10. Ashamed

### **2.0.3 Moodiness**

Moodiness is an important aspect of a character's personality and can greatly impact their behavior in different situations. A character who is labile, or quick to experience intense emotions, is likely to react strongly to the events happening around them. This can make them appear impulsive and prone to outbursts, but it can also add a level of excitement and unpredictability to their actions. On the other hand, a phlegmatic character, who is psychologically consistent and moderate, is likely to maintain their composure in even the most trying of situations. This calm demeanor can give them a sense of stability and reliability, but it can also make them appear uninterested or indifferent to the world around them.

It is important to note that both moodiness traits have their own strengths and weaknesses, and they can greatly impact a character's relationships with other characters. For example, a labile character may be prone to jealousy or resentment, while a phlegmatic character may struggle with expressing their emotions effectively. Choosing the right moodiness trait for your character can help you build a more complete and well-rounded personality.

Ultimately, the key to making a character's moodiness work for them is understanding the underlying motivations and dispositions that drive their behavior. Whether your character is quick to experience intense emotions or stays calm and collected in the face of adversity, the key is to make sure that their moodiness feels true to who they are as a character. By incorporating moodiness into your character's personality, you can add depth and richness to your role-playing experience and help bring your character to life on the tabletop.

1. Labile
2. Even-tempered
3. Phlegmatic

#### 2.0.4 Outlook

The concept of outlook is an important aspect of character creation as it defines the basic worldview of a character and helps determine their overall view of the world around them. This trait can greatly influence the choices that a character makes and the way they interact with others. A character with a positive outlook is likely to see the good in people and situations, while a character with a negative outlook is likely to be more skeptical and pessimistic. Understanding a character's outlook is key to understanding their motivations and how they may react in different situations. It is important to note that a character's outlook does not dictate their alignment, as a character can have a positive outlook but still make morally questionable decisions. This trait helps to add depth and complexity to a character, making them feel more real and unique.

**Optimistic** An optimistic outlook is characterized by idealism and confidence. Individuals with this outlook tend to be trusting and hopeful, often viewing situations with an upbeat attitude and a positive expectation for outcomes.

**Pessimistic** A pessimistic outlook is often marked by cynicism and a bleak perspective. Those with this outlook may be distrustful and foreboding, expecting negative outcomes and sometimes feeling resigned to unfavorable situations.

**Realistic** A realistic outlook is grounded in practicality and balance. Realistic individuals approach situations pragmatically, focusing on what is achievable and maintaining a level-headed perspective.

### 2.0.5 Integrity

Integrity refers to the values that guide a character's behavior in work and social interactions. When creating a character, players can choose between two options that embody different qualities and tendencies. The first option is "Conscientious", which represents being industrious, honest, responsible, meticulous, and pragmatic. On the other hand, the second option is "Unscrupulous", which embodies being lazy, deceitful, unreliable, manipulative, slipshod, and impractical. These two options serve as a starting point for players to develop their character's personality and decision-making. The choice of integrity will play a crucial role in determining a character's motivations and actions, influencing the character's interactions with others and the events of the story.

**Conscientious** The individual is industrious, honest, responsible, meticulous, and pragmatic.

**Unscrupulous** The individual is lazy, deceitful, unreliable, manipulative, slipshod, and impractical.

### 2.0.6 Impulsiveness

The next aspect of character creation to consider is impulsiveness. This trait refers to a character's ability to regulate their thoughts and actions. Players must choose between two options: controlled or spontaneous. A controlled character is deliberate, focused, steady, and thoughtful. They carefully consider their decisions and think before they act. On the other hand, a spontaneous character is capricious, flighty, hyperactive, and rash. They are quick to act without thinking through the consequences of their actions. It's important to consider impulsiveness as it can greatly impact the way a character approaches situations and reacts to stimuli. A controlled character may be more reliable and level-headed, while a spontaneous character may be more unpredictable and exciting. Ultimately, the choice of impulsiveness helps

to round out a character's personality and inform their behavior.

**Controlled** The individual is deliberate, focused, steady, and thoughtful in their actions.

**Spontaneous** The individual tends to be capricious, flighty, hyperactive, and rash in their behavior.

### 2.0.7 Boldness

When it comes to creating a character's personality, it is important to consider their boldness, or willingness to face danger and enter into battle. This trait can greatly impact how a character approaches conflict and adversity, and can inform their actions and decisions in high-pressure situations. There are two main options for this characteristic: intrepid and cautious.

Intrepid characters are daring, reckless, and valorous. They have a confident demeanor and are not easily intimidated by danger. They are known for their bravery and audacity in the face of adversity, and are often seen as leaders in combat situations. On the other hand, cautious characters are timid, paranoid, and vigilant. They are nervous and tentative in the face of danger, preferring to assess the situation before making a move. They are not as quick to jump into action, but their carefulness can often lead to a more strategic approach to conflict.

**Intrepid** The individual is daring, reckless, valorous, dauntless, audacious, and confident.

**Cautious** The individual is timid, paranoid, vigilant, nervous, and tentative in their actions.

## 2.0.8 Agreeableness

The sub-topic of "Agreeableness" deals with a character's overall attitude towards others and their ability to handle interpersonal conflicts and new situations. This trait is particularly important in shaping a character's behavior in social interactions and their ability to navigate challenging circumstances. A character who is described as "Agreeable" is warm, empathetic, and open-minded, possessing qualities such as tolerance, forgiveness, and adaptability. On the other hand, a character who is described as "Disagreeable" is cold and rigid, possessing traits such as tension, intractability, and narrow-mindedness. Understanding a character's level of agreeableness can give insight into how they are likely to respond in social and interpersonal situations.

**Agreeable** The individual is warm, empathetic, tolerant, forgiving, open-minded, adaptable, and altruistic.

**Disagreeable** The individual is cold, rigid, tense, intractable, narrow-minded, cantankerous, and stingy.

### 2.0.9 Interactivity

The next sub-topic in character creation is Interactivity, which deals with the way your character interacts with others. This aspect of personality is crucial in shaping the character's social relationships and determining how they engage with the world around them. The table of choices in Interactivity includes two options: Engaging and Reserved. An Engaging character is often talkative, candid, and touchy, while a Reserved character is usually shy, preferring to keep to themselves and be more reserved in their interactions. Understanding this aspect of your character will greatly enhance the depth of your role-playing experience and allow you to build compelling, engaging stories.

**Engaging** The individual is talkative, candid, entertaining, and touchy.

**Reserved** The individual is shy, a loner, taciturn, evasive, and cryptic.

### 2.0.10 Conformity

Conformity is an important aspect of a character's personality, determining their relationship with cultural norms and societal expectations. A character who is conventional is likely to follow orthodox beliefs and practices, be formal in their demeanor, and adhere to mainstream customs. On the other hand, a character who is heterodox may be rebellious in nature, have a creative and artistic streak, and may be known for their freethinking and exotic choices. Understanding a character's conformity can give insight into how they view and interact with the world around them.

**Conventional** The individual is orthodox, formal, down-to-earth, mainstream, and traditional.

**Heterodox** The individual is rebellious, arty, shocking, free-thinking, and exotic.

### 2.0.11 Quirks, Habits, and Oddities

To help bring your character to life and add depth to gameplay, consider incorporating small quirks, habits, and oddities into their personality. These unique behavioral characteristics can range from relatively harmless habits, such as

humming or lip biting, to more engaging and potentially entertaining quirks such as exhibitionism or sleepwalking. By adding these small but meaningful details to your character, you can bring them to life in a way that sets them apart from the rest of the party.

These quirks, habits, and oddities can offer a multitude of role-playing opportunities. They can help flesh out a character's backstory, provide unique challenges or benefits during gameplay, and even influence the way they interact with other characters. For example, a character who is a compulsive liar may struggle with building trust with others, while a character who is an animal hater may have trouble working with characters who have animal companions. Whether you choose to focus on the more harmless or more engaging quirks, incorporating these small behaviors into your character can greatly enhance your role-playing experience.

### **2.0.12 Sense of Humor**

Sense of Humor is an important aspect of a character's personality and can be used to show their humor preferences and how they might react in different situations. It ranges from crude humor to dry wit and includes various styles such as slapstick, jokey, cynical, prankster, mean-spirited, gleeful, and surreal. By selecting one of these options, you can help to define your character's sense of humor and how they might react in different situations. Having a strong sense of humor can also be a way for your character to diffuse tense situations, and can be used to show their lighter side. Ultimately, your character's sense of humor is a tool that you can use to further develop their personality and bring them to life in your storytelling.

1. Crude

2. Dry
3. Slapstick
4. Jokey
5. Cynical
6. Prankster
7. Mean-spirited
8. Gleeful
9. Surreal

### 2.0.13 Mental Disorders

In this RPG system, we aim to provide an accurate representation of human mental and emotional disorders. While we understand that not all players may want their character to struggle with such issues, it does present an opportunity for unique and interesting role-play. For this reason, we suggest that players consider assigning these disorders to non-player characters, adding depth and complexity to the game world. It's important to note that the list provided is not exhaustive and only offers brief descriptions. Nevertheless, these disorders can also serve as inspiration for creating realistic and terrifying curses or divine punishments.

1. **Addiction:** Chronic, compulsive drug/activity indulgence, despite harmful consequences. Can decide if it is mild, moderate, or severe.
2. **Amnesia:** Severe memory loss; can be loss before a certain point (retrograde) or after (anterograde).
3. **Bipolar Disorder:** Erratic swings from periods of mania to major depression.
4. **PTSD:** Anxiety disorder developed after exposure to a terrifying event or ordeal resulting in potential re-experiencing of the ordeal, nightmares, hypervigilance, trouble sleeping, being easily startled, and avoidance of anything that is a reminder of the event.
5. **Major Depression:** Impaired physical functions (e.g., sleep, appetite); loss of interest and pleasure; low energy & motivation; possibly accompanied by severe pessimism, hopelessness, guilt, and suicidal thoughts/intent.

6. **Fugue:** Abrupt travel away from home, an inability to remember important aspects of one's life, and the partial or complete adoption of a new identity.
7. **Hypochondria:** Preoccupation with fears of having a serious disease or physical problem based on little or no real evidence.
8. **Schizophrenia:** Delusions (unreal beliefs, e.g., savior complex or assigning unusual significance or meaning to normal events); hallucinations (unreal sensations, usually auditory, i.e., "voices"); disorganized speech; grossly disorganized or catatonic behavior; paranoia.
9. **OCD:** Obsessive-Compulsive Disorder described the existence of both regular compulsions (overwhelming need to engage in a ritualized behavior) and obsessions (persistent, often irrational, and seemingly uncontrollable thoughts).
10. **Phobia:** Extreme anxiety and fear associated with an object or situation. Can include anything, for instance: specific monsters/animals, fire/water, heights, magic, open/enclosed spaces, heights, or darkness.
11. **Agoraphobia:** Fear of being in a situation where escape is difficult or where help might not be available in the event of a panic attack or other medical emergency.
12. **Social Anxiety Disorder:** Extreme fear of embarrassment or criticism in social situations.
13. **Body Dysmorphic Disorder:** Preoccupation with an imagined or minor defect in one's appearance.
14. **Generalized Anxiety Disorder:** Chronic, excessive worry about multiple life events and activities.
15. **Obsessive Love Disorder:** Intrusive thoughts about an individual and an overwhelming need to be with them.
16. **Delusional Disorder:** A condition in which an individual experiences non-bizarre delusions, meaning the delusions are not implausible and could happen in reality.

17. **Adjustment Disorder:** Disturbance caused by a specific stressful life event, such as a loss, change in lifestyle, or change in health status.
18. **Narcissistic Personality Disorder:** Excessive self-love, entitlement, and a lack of empathy for others.
19. **Borderline Personality Disorder:** A pattern of instability in relationships, moods, self-image, and behavior.
20. **Antisocial Personality Disorder:** A disregard for laws and the rights of others.
21. **Anxiety Disorder:** A general term for excessive fear or worry about everyday events and activities.
22. **Dissociative Identity Disorder:** A pattern of unstable emotions, relationships, and sense of self.
23. **Histrionic Personality Disorder:** A condition in which a person's sense of identity is fragmented and they experience two or more distinct and alternating personalities.
24. **Obsessive-Compulsive Personality Disorder:** A pattern of excessive emotionality and attention-seeking behavior.
25. **Paranoia:** A pattern of preoccupation with orderliness, perfectionism, and control.
26. **Psychotic Disorder:** A pattern of grandiosity, need for admiration, and lack of empathy.
27. **Eating Disorder:** An unreasonable distrust or suspicion of others, often accompanied by delusions.
28. **Trichotillomania:** A group of mental illnesses characterized by distorted thinking, perceptions, emotions, and behaviors.

### 2.0.14 Topics of Conversation

One helpful way to bring depth to your character is to determine what they like to talk about in casual social situations. People are naturally inclined to talk about things they are skilled in or have a personal interest in, and this is an easy

way to help flesh out your character. By examining your character's skills, hobbies, training, and background, you can start to determine what topics they might be passionate about. This information can be used to create a more complete picture of who your character is and how they interact with others in social situations. By giving your character a few key topics they like to discuss, you can help bring them to life and make them more memorable to other players.

### 2.0.15 Conclusion

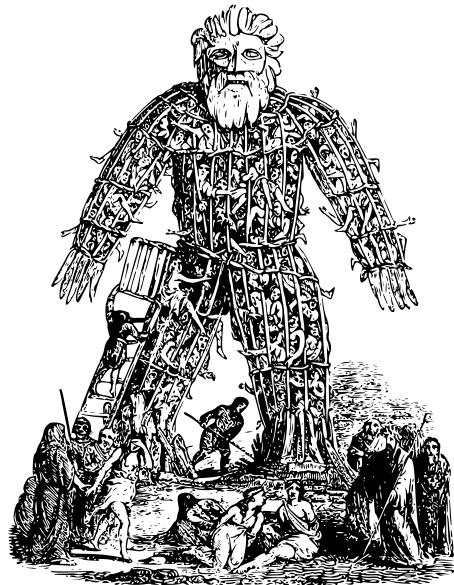

In conclusion, the character's personality is a crucial aspect in role-playing games and helps to bring the character to life. This chapter has covered a range of fields that allow players to flesh out their characters, including alignment, morality, values, beliefs, religion and spirituality, and quirks. These fields provide a comprehensive and nuanced view of the character's personality, allowing players to bring depth and dimension to their characters. By taking the time to fill out these fields, players can create truly unique and engaging characters that will bring their stories to life. Whether playing a heroic warrior or a cunning rogue, these fields help players to truly embody their characters and bring the world of the game to life.

## Chapter 3

# Spirituality and Religion

---

In the world of role-playing games, it's important to consider the spirituality and religious beliefs of a character. The Spirituality Sheet is an integral part of character creation and is designed to help players define their character's connection to the spiritual and religious aspects of the game world. This chapter will detail the mechanics behind the Spirituality Sheet, including the options available for defining the strength of a character's belief or association with a religious system, as well as any relevant traits and skills that may impact the character's spirituality and religious beliefs. Whether playing as a devout follower of a particular faith or a non-believer, the Spirituality Sheet will help play-

ers bring their character to life and create a more immersive role-playing experience.

### 3.0.1 Adherence

The "Adherence" field on the character sheet represents the strength of the character's belief or association with a particular religious or spiritual system. The options for this field range from non-believer to orthodox adherent, providing a spectrum of beliefs that a character can possess. The non-believer is someone who does not hold any belief in a higher power, whereas an agnostic is someone who is uncertain about the existence of a higher power. On the other hand, a casual adherent is someone who holds a loose connection to their religious or spiritual beliefs, and an orthodox adherent is someone who strictly follows the teachings and practices of their chosen system. This mechanic helps to further flesh out the character and their motivations, and provides a lens through which the character may view the world around them.

1. Non-believer
2. Agnostic
3. Casual adherent
4. Orthodox adherent

### 3.0.2 Tolerance

This field reflects the character's willingness to accept differences of belief in others. In determining the level of tolerance, there are three options available for the player to choose from: Inclusive, Tolerant, or Intolerant. The level of tolerance selected will affect how the character interacts with people of different beliefs and religions in the game world.

1. Inclusive
2. Tolerant
3. Intolerant

### 3.0.3 Religious Demeanor

The field "RELIGIOUS DEMEANOR" on the character sheet aims to capture how your character tends to act in regards to religious beliefs. To reflect this, the player will be presented with three different fields to fill out. The first field is "Expression of beliefs" and asks the player to decide on the frequency at which their character expresses their beliefs. The options range from "None", "Occasional", to "Constant". The next field is "Converting others", which asks the player to choose the level of effort the character puts into converting others to their beliefs. The choices here are "Never", "Casual", and "Aggressive". Finally, the "Attitude" field asks the player to choose the general approach the character takes towards religion and religious beliefs. The options for this field range from the irreverent "Irreverent" to the devout "Ecstatic". By filling out these fields, the player can gain a deeper understanding of their character's relationship to religion and spirituality.

**Expressions of Beliefs:** The individual may express their beliefs in different ways. They could be a **None**, meaning they do not express their beliefs outwardly. They could be **Occasional**, meaning they express their beliefs casually or sporadically. Or, they could be **Constant**, meaning they frequently and openly express their beliefs.

**Approach to Converting Others:** When it comes to converting others, individuals may approach this in varying degrees. They might be **Never** interested in converting others to their beliefs, meaning they have no desire to do so. They might be **Casual**, where they casually discuss their beliefs with others without the intent to convert them. Or, they might be **Aggressive**, meaning they actively try to

convert others, sometimes with strong persuasion.

**Attitudes Toward Beliefs:** Individuals also differ in how they approach their own beliefs. They may be ***Irreverent***, meaning they treat their beliefs with little seriousness or respect. They could be ***Fearful***, having a fearful or cautious approach toward their beliefs. They might be ***Judgmental***, meaning they are critical of others' beliefs compared to their own. Alternatively, they may be ***Humble***, holding a modest and respectful view of their beliefs, or ***Ecstatic***, experiencing intense joy and enthusiasm in their beliefs.

### 3.0.4 Religious association

The "Religious Association" field in the character sheet is an important aspect of a character's spirituality. This field indicates the character's affiliation, or lack thereof, with a religious organization or belief system. There are a range of options available, including Church, Cult, Fellowship, Solitary, and Indigenous, each with its own unique meaning and characteristics.

A Church is a well-established, hierarchical religious organization, typically with a set of beliefs and practices that are followed by its members. A Cult is a smaller group attached to a single charismatic leader, who may have unique or unconventional beliefs. A Fellowship is a small, informal religious group that lacks formal organization and a charismatic leader. Solitary is for characters who either have unique beliefs or choose not to affiliate with others, and Indigenous refers to religious traditions within a cultural group, such as a family or village.

Having an understanding of a character's religious association can provide insight into their beliefs, values, and motivations, and can also add depth to their relationships with other characters. This field can also play a role in the story, as it may impact the character's actions and decisions, as well as influence how they are perceived by others.

**Church:** A church refers to a large, established, and hierarchical religious organization with a set of doctrines and practices that are typically followed by a broad community of believers.

**Cult:** A cult is a group, either small or large, that exhibits strong devotion to a single charismatic leader and often adheres to unconventional beliefs and practices.

**Fellowship:** A fellowship consists of a small group of

like-minded individuals who gather for religious purposes, but without the structure of a formal organization or a charismatic leader.

**Solitary:** A solitary individual holds unique beliefs or has chosen to remain independent, without affiliating with any religious group.

**Indigenous:** Indigenous religious traditions are those practiced within a cultural group, such as a family, village, or tribe, where there is a strong connection to the cultural identity of the group.

**Sect:** A sect is a subgroup within a larger religious organization that maintains distinct beliefs and practices that set it apart from the main body of the religion.

**Coven:** A coven is a group of individuals who practice witchcraft, often incorporating elements of nature worship and animism into their beliefs.

**Temple:** A temple is a designated place of worship, typically associated with a specific religion or spiritual tradition, where followers gather to perform rituals and prayers.

**Monastery:** A monastery is a religious community, often associated with a particular order or denomination, where members dedicate themselves to a life of contemplation, prayer, and devotion.

**Mystic Order:** A mystic order is a secret society or organization that focuses on the study and practice of spiritual and esoteric knowledge, often pursuing a deeper understanding of the mysteries of the universe.

### 3.0.5 Religious Roles

The "Religious Roles" field represents the various positions and titles within a fictional religious organization or belief

system. These roles range from leaders and spiritual advisors, to assistants and messengers, to protectors and mediators. Each role comes with its own set of responsibilities and privileges, reflecting the unique aspects and beliefs of the religion it represents. Some religious roles may be highly respected and hold significant power within the community, while others may be more solitary or focused on specific tasks. This field is important for creating well-rounded and diverse religious systems within the game world, and for providing players with the opportunity to explore different aspects of spirituality and faith. Whether a player chooses to play a charismatic leader or a solitary mystic, the "Religious Roles" field offers a wealth of opportunities for role-playing and character development.

1. **Abbot/Abbess:** The leader of a monastery or convent.
2. **Archbishop:** A bishop who oversees multiple dioceses.
3. **Acolyte:** An assistant or beginner in religious service.

27. **Healer:** A person skilled in the use of herbs, prayers, or other methods to cure illnesses and injuries.
28. **Oracle:** A person or entity that provides insight or prophesies into the future or hidden knowledge.
29. **Seer:** A person who has the ability to see and understand things that others cannot, often through spiritual means.

30. **Divine Herald:** A messenger of the gods, responsible for delivering messages and performing sacred duties.
31. **Sanctuary Keeper:** The caretaker of a sacred place, responsible for maintaining its sanctity and protecting it.
32. **Temple Guardian:** A protector of a religious site, such as a temple or shrine.
33. **Shrine Maiden:** A female spiritual attendant, responsible for maintaining the purity and sanctity of a shrine.
34. **Ritualist:** A person skilled in the performance of religious rituals and ceremonies.
35. **Visionary:** A person who receives and interprets divine visions and messages.
36. **Soothsayer:** A person who predicts future events based on astrology, dreams, or other forms of divination.
37. **Holy Knight:** A warrior who serves a religious cause and protects the faithful.
38. **Chant Master:** A person who leads religious music and song, often in a religious setting.
39. **Deacon:** A clergy member responsible for serving the needs of a congregation.
40. **Minister:** A religious leader who serves a specific denomination or congregation.
41. **Deity:** A supernatural being worshipped as having power over the world and human affairs.
42. **Saint:** A person recognized as holy or virtuous by a particular religion.
43. **Apostle:** A messenger or disciple of a religious teacher or leader.
44. **Recluse:** One who lives in solitude for spiritual or religious reasons.
45. **Necromancer:** A person who communicates with the dead for the purpose of gaining knowledge or guidance.

### 3.0.6 Practices/Rituals

The "Practices/Rituals" field is an important aspect of a character's spiritual profile, as it allows players to flesh out their character's religious beliefs and observances. This field covers the specific rituals or practices that the character engages in, such as daily prayers or meditations, monthly celebrations or ceremonies, seasonal rituals, or life milestones. In addition to the type of ritual, this field may also include information on the frequency, location, and details of the ritual itself. For example, a character might participate in a monthly full moon ritual that involves offering incense, reciting prayers, and communing with their deity or spirit guide. By including this information, players can help to create a more vivid and immersive representation of their character's spirituality. Additionally, this information can also be used to drive roleplaying decisions, such as the character's reactions to certain situations or interactions with others. Overall, the "Practices/Rituals" field is a valuable tool for creating well-rounded, believable characters with unique spiritual perspectives.

1. **Daily prayers or meditations:** This entry would describe any daily spiritual practices the character engages in, such as daily prayers, meditations, or affirmations. The player could specify the frequency, duration, and location of these activities, as well as the purpose or intention behind them.
2. **Monthly religious celebrations or ceremonies:** This entry would describe any monthly religious events or observances the character participates in, such as full moon rituals, holy days, or feast days. The player could detail the specific celebrations or ceremonies, the

significance or meaning behind them, and the role the character plays in these events.

3. **Seasonal rituals or observances:** This entry would describe any seasonal spiritual practices or events the character participates in, such as solstice or equinox ceremonies, harvest festivals, or other events that mark the changing of the seasons. The player could detail the specific rituals or observances, the significance or meaning behind them, and the role the character plays in these events.
4. **Life milestones or rites of passage:** This entry would describe any spiritual practices or events that mark important transitions or milestones in the character's life, such as birth, adolescence, marriage, or death. The player could detail the specific rituals or observances, the significance or meaning behind them, and the role the character plays in these events.
5. **Fasting or dietary restrictions:** This entry would describe any dietary restrictions or fasting practices the character engages in for religious or spiritual reasons. The player could specify the type of fasting, the frequency, and the reason behind it, as well as any specific dietary restrictions the character follows, such as vegetarianism or prohibitions against certain foods or ingredients.
6. **Pilgrimages or sacred journeys:** This entry would describe any pilgrimages or sacred journeys the character has taken or plans to take, such as visiting holy sites, participating in spiritual retreats, or making offerings at shrines or temples. The player could detail the specific destinations, the significance or meaning behind these journeys, and any preparations or rituals involved in making these trips.

7. **Animal or human sacrifices:** This entry would describe any instances where the character participates in or witnesses animal or human sacrifices as part of their religious or spiritual beliefs. The player could detail the specific reasons for these sacrifices, the religious or spiritual significance behind them, and any emotional or ethical conflicts the character experiences in relation to these practices.
8. **Chanting, Singing, or Dancing:** These rituals often involve repetitive vocalizations or movements that are meant to connect the individual with the divine or the spiritual realm. In some religions, singing and dancing are also used to tell religious stories or to give praise to a deity. These practices can be performed individually or as part of a group, and they can take place in a designated religious space or in everyday life.
9. **Use of Religious Symbols or Artifacts:** Religious symbols and artifacts can hold a significant spiritual meaning for an individual and can be used in religious practices and rituals. They may include objects such as crosses, statues, altars, prayer beads, or other items that are used to focus the individual's thoughts and emotions towards their religion. The use of these symbols and artifacts may also serve as a way to connect the individual with the divine, to protect themselves from harm, or to mark special moments in their spiritual journey.
10. **Spiritual or Physical Purification Rituals:** Purification rituals can take many forms and serve different purposes, but they typically aim to cleanse the individual of negative energies or influences. These rituals may involve washing or bathing, fasting, meditation, or the use of special incense or herbs. In some cultures, spiritual purification may be seen as a necessary step before engaging in other religious practices or before coming into contact with sacred spaces or objects.
11. **Offering of Incense or Candles:** The burning of incense or candles is a common religious practice in many cultures and can serve a variety of purposes. It may be used to create a peaceful or meditative atmosphere, to communicate with the divine, to make offerings to a deity, or to symbolize the individual's devotion. The

act of lighting incense or candles may also involve specific rituals or prayers, making the act of offering a spiritual or sacred act.

12. **Recitation of Prayers, Mantras, or Affirmations:** The recitation of prayers, mantras, or affirmations is a common practice in many religions and spiritual traditions. These verbal expressions can serve as a way to connect with the divine, to focus the individual's thoughts, or to give praise or gratitude. Prayers and mantras may be recited individually or in a group, and they may involve specific actions such as bowing, kneeling, or making offerings.
13. **Meditation or Visualization Exercises:** Meditation and visualization exercises are commonly used in spiritual and religious contexts as a way to focus the mind and connect with the divine. These practices can involve focusing on a specific image or thought, repeating a mantra or affirmation, or simply letting the mind become still. Meditation and visualization can be performed in a quiet or sacred space, or as part of a larger ritual or ceremony.
14. **Communication with Gods, Spirits, or Ancestors:** Many spiritual and religious traditions involve communicating with gods, spirits, or ancestors as a way to seek guidance, protection, or to make offerings. This communication can take many forms, including prayer, divination, or mediumship. In some cultures, communication with the spiritual realm is seen as a necessary part of daily life, while in others it is reserved for special occasions or life events.
15. **Divination or prophetic rituals:** Divination or prophetic rituals involve seeking insight or knowledge of the future, or receiving guidance from a higher power. This could include practices like tarot readings, casting bones, or interpreting omens. These rituals are often performed by a designated individual within the religious community, such as a priest or shaman.

16. **Healing or protection rituals:** Healing or protection rituals are performed with the intention of restoring health or providing protection to an individual or community. These could include practices like laying on of hands, reciting incantations, or using magical symbols. These rituals may be performed by a religious leader or by individuals seeking to heal themselves or others.
17. **Rituals involving the use of psychoactive substances:** Rituals involving the use of psychoactive substances, such as entheogenic plants or psychedelics, are sometimes used in religious or spiritual practices. These substances are believed to alter the state of consciousness, allowing the individual to connect with the divine or access higher states of awareness. These practices are often performed under the guidance of a shaman or spiritual leader and are considered sacred within some religious traditions.
18. **Group meditation or prayer sessions:** Group meditation or prayer sessions involve a community of individuals coming together to meditate, pray, or perform other spiritual practices in unison. These sessions are often led by a religious leader or facilitator and may be performed on a regular basis, such as daily or weekly. Group meditation or prayer sessions can provide a sense of community and support for those involved and can also help to deepen individual spiritual experiences.
19. **Choral performances or religious music:** Choral performances or religious music involve singing or playing musical instruments in a religious or spiritual context. This could include hymns, chants, or gospel songs. These performances may be performed by a choir.

### 3.0.7 Challenges to Faith

This field provides a platform for the player to delve into the complexities of their character's faith and beliefs. The challenges to faith can take various forms, each one presenting its own set of obstacles for the character to overcome. Through detailing these trials, the player can create a well-rounded religious background for their character, one that reflects the multifaceted nature of faith and belief in ancient times. Listed here are some examples of challenges to faith, such as:

- Personal trial of faith
- Encounter with a conflicting faith tradition
- Questioning of core religious teachings
- Uncertainty in the existence of a divine power
- Loss of a cherished one who was a source of spiritual fortitude
- Disagreement with a religious leader or community
- Surviving a traumatic event
- Exposure to alternative creeds or doctrines
- Difficulty aligning religious beliefs with life experiences
- Lack of satisfaction or meaning in life
- Tribulation to personal morals and ethics
- Negative experiences with members of a religious group
- A shift in life circumstances or surroundings
- Discrepancies within religious doctrine or teachings

- Disillusionment with the actions of religious leaders or institutions
- Inability to experience a personal spiritual connection
- A change in personal values or goals
- A yearning for a deeper understanding of one's beliefs

### 3.0.8 Conclusion

In conclusion, the Spirituality Sheet provides a comprehensive way to shape a character's religious and spiritual beliefs within the game world. By exploring the various aspects of adherence, tolerance, religious demeanor, association, roles, practices and rituals, as well as challenges to faith, players can craft a well-rounded and believable character that is truly reflective of their personal beliefs and experiences. The Spirituality Sheet is a valuable tool for bringing depth and dimension to a character and allowing players to fully immerse themselves in their role-playing experience. Whether your character is devout, questioning, or somewhere in between, the Spirituality Sheet provides the framework necessary to create a truly authentic and engaging character.

## Chapter 4

# Physical Description

---

This chapter delves into the intricate details that bring characters to life within the world of Eidos. As players embark on their imaginative journeys, this section serves as a guide to creating vivid and visually appealing characters. A character's physical appearance not only shapes their identity but also influences how they interact with the game's immersive setting.

Within this chapter, players will discover a wealth of options and considerations to craft the perfect physical representation of their character. From facial features and body types to hairstyles and clothing choices, each element contributes to a unique and memorable persona. Whether it's a towering warrior with a battle-scarred face, a nimble rogue with piercing eyes, or a mystical spellcaster adorned in intricate robes, the physical description chapter empowers players to manifest their characters' appearances with precision and creativity.

By providing a comprehensive exploration of physical traits, this chapter ensures that every player has the tools necessary to design characters that not only reflect their imagination but also contribute to the depth and immersion of the game world. With attention to detail and an emphasis on personal expression, Eidos encourages players to embrace their creativity and bring forth characters that will leave a lasting impression on their adventures.

### 4.0.1 Body

The human form is a canvas for storytelling, and body types play a significant role in shaping a character's physical presence. In this section, we delve into the diverse aspects of body types, starting with **Height**. Explore how height can influence perception, power dynamics, and interactions within your character's world.

- Height Options:

- Tall
- Average
- Short
- Very Tall
- Very Short

Next, we examine the concept of **Build**, exploring different body shapes and sizes and their impact on character traits and capabilities.

- Build Options:

- Slender and Athletic
- Robust and Heavily Built
- Lean and Muscular
- Petite and Delicate

Finally, we discuss the importance of **Proportions**, highlighting how well-balanced proportions contribute to a visually appealing and believable character.

- Proportions Options:

- Well-Balanced
- Long Limbs
- Short Torso
- Broad Shoulders
- Proportionate Limbs

Consider this expanded options for each aspect to further customize your character's height, build, and proportions. These choices will help shape your character's physical presence, traits, and visual identity within the game world.

#### 4.0.2 Skin - Texture

The skin is the outermost layer of the body, providing protection and serving as a canvas for expression. In this section, we explore the intricate aspects of skin and skintone, allowing you to create characters with diverse appearances and backgrounds.

Skin texture refers to the surface quality and appearance of the skin. It can vary from smooth and flawless to rough and weathered, adding depth and realism to your character's visual representation. Consider the following options for skin texture:

- **Smooth:** Skin with a smooth and even texture, free from visible blemishes, scars, or imperfections. It appears soft, supple, and well-nourished.
- **Freckled:** Skin with scattered freckles across the face and sometimes other areas of the body. Freckles are small, pigmented spots that add charm and youth.
- **Wrinkled:** Skin with visible wrinkles and fine lines, often associated with aging or exposure to environmental factors. It appears creased or folded.
- **Blemished:** Skin with noticeable blemishes such as acne, pimples, or blackheads. It may appear inflamed or uneven in texture.
- **Dimpled:** Skin with small, natural indentations known as dimples, often seen on cheeks or chin. Dimples can add a touch of charm and playfulness.
- **Weathered:** Skin that shows signs of exposure to harsh elements, such as wind or sun damage. It may appear rough, dry, or aged.
- **Glowing:** Skin that radiates a healthy glow and appears vibrant, often associated with good health and a balanced lifestyle.

By selecting a specific skin texture, you can visually convey your character's history, lifestyle, and unique traits, enhancing their depth and storytelling potential.

### 4.0.3 Skin - Skintone

The skin is the outermost layer of the body, providing protection and serving as a canvas for expression. In this section, we explore the intricate aspects of skin and skintone, allowing you to create characters with diverse appearances and backgrounds.

#### Skintone

Skintone encompasses the coloration of the skin, which can vary across a broad spectrum. It is influenced by factors such as genetics, environment, and cultural heritage. Explore the diverse skintone options for your character:

**Fair** A light complexion with a delicate, porcelain-like appearance. Similar to fresh snow or fine china.

**Light** A pale and subtle skintone with a soft and gentle complexion. Similar to a petal or light cream.

**Pale** A very light skintone with minimal color and a delicate complexion. Similar to a pearl or light mist.

**Porcelain** A smooth and pale skintone resembling fine porcelain or alabaster. Similar to fine porcelain or marble.

**Coffee** A deep and rich skintone resembling the color of coffee beans. Similar to coffee beans or dark bark.

**Onyx** A pitch-black skintone with no discernible undertones. Similar to onyx or black velvet.

Choosing a skintone helps define your character's ethnicity, ancestry, and cultural identity. It adds richness and authenticity to their visual portrayal, further immersing players into the world of your RPG.

#### 4.0.4 Skin - Complexion

Complexion refers to the overall appearance and condition of the skin, including factors such as brightness, clarity, and health. It can range from a radiant and flawless complexion to a more sallow or troubled one. Consider the following complexion options:

**Radiant** A complexion that appears glowing, healthy, and vibrant. The skin has a natural radiance, often associated with good health and vitality.

**Clear** A complexion that is smooth, even, and free from blemishes or imperfections. The skin appears flawless and has a naturally clear and bright tone.

**Ruddy** A complexion that has a reddish or rosy undertone, often associated with a healthy flush. The skin appears lively, with a natural rosy hue.

**Sallow** A complexion that has a yellowish or pale undertone, often associated with fatigue or illness. The skin appears dull or lacking in vitality.

**Acne-Prone** A complexion that is prone to acne breakouts or blemishes. The skin may have visible pimples, redness, or inflammation due to acne or oily skin.

By selecting a specific complexion, you can add another layer of detail to your character, highlighting their physical well-being, lifestyle, or even their struggles.

Create characters with unique skin textures, skintones, and complexions to represent a wide range of backgrounds, ethnicities, and experiences. The choices you make in this aspect of character creation contribute to their visual identity and help shape their story within the game world.

#### 4.0.5 Eyes - Colors

The face is a canvas that reveals the uniqueness and character of a person. In this section, we delve into the intricacies of facial features, exploring the mesmerizing world of eyes, the windows to the soul. Discover how the shape, color, and expression of the eyes can add depth and personality to your character.

**Brown** A warm, earthy color resembling the rich tones of coffee beans, chestnuts, or fertile soil. It can range from light caramel to deep chocolate, mirroring the shades found in the bark of trees or the feathers of certain birds.

**Blue** Reminiscent of a clear sky or the shimmering surface of a calm lake, blue eyes vary from a pale, icy blue to a vibrant sapphire or deep indigo. They can evoke images of serene waters, delicate flowers like forget-me-nots, or the wings of certain butterflies.

**Green** Reflecting the lushness of the natural world, green eyes can range from a vibrant emerald to a soft, mossy green. They resemble the color of fresh grass, leaves in a dense forest, or the captivating iridescence of certain gemstones like jade or malachite.

**Hazel** A captivating mix of colors, hazel eyes showcase various hues such as warm browns, soft greens, and hints of gold. They can resemble the vibrant shades seen in autumn leaves, a cup of creamy hazelnut coffee, or the dappled patterns on the wings of butterflies or birds.

**Gray** Exhibiting a cool and subtle tone, gray eyes can resemble the color of storm clouds, morning mist, or the feathers of certain birds like pigeons or doves. They can also have a silvery sheen, reminiscent of moonlit nights or the reflective surface of a calm lake.

**Amber** Radiating a warm, golden color, amber eyes resemble the glowing embers of a cozy fire or the rich hues of autumn leaves basking in sunlight. They can bring to mind the warm glow of a candle or the golden strands of honey dripping from a spoon.

**Violet** A mesmerizing purple color reminiscent of delicate lavender fields, royal amethyst gemstones, or the petals of enchanting flowers like violets or orchids. Violet eyes can evoke a sense of mystery, magic, and ethereal beauty.

**Black** Deep and intense, black eyes are as dark as a moonless night. They can resemble the glossy feathers of certain birds, the obsidian surface of volcanic rock, or the captivating darkness of a starless sky.

**Red** Unusual and captivating, red eyes possess a vibrant crimson hue that can resemble the fiery glow of molten lava, the intensity of a blazing fire, or the striking color of a red rose in full bloom. They convey a sense of passion, intensity, or otherworldly allure.

**Violet-Blue** A captivating fusion of violet and blue, violet-blue eyes exhibit a mesmerizing shade reminiscent of a twilight sky. They can resemble the hues seen during a breathtaking sunset, the delicate petals of blue violets, or the radiant colors found in certain gemstones like tanzanite.

**Gray-Blue** A subtle blend of gray and blue, gray-blue eyes have a cool and calming appearance. They can bring to mind the colors of a misty morning sky, the soft reflection on a calm lake, or the delicate patterns on seashells washed ashore.

**Green-Hazel** Combining the beauty of green and hazel, green-hazel eyes showcase a captivating mix of warm greens, golden browns, and hints of amber. They can resemble the lush tones found in a sun-dappled forest, the intricate patterns on a butterfly's wings, or the vibrant colors of certain gemstones like peridot.

**Gold** Resembling the precious metal it is named after, gold eyes possess a radiant and luminous hue. They can evoke images of the golden rays of the sun, the shimmering surface of a calm lake reflecting sunlight, or the warm glow of a candle flame.

**Silver** Exhibiting a cool and striking appearance, silver eyes have a silvery-gray or bluish-gray hue reminiscent of moonlit nights, shimmering frost, or the reflective surface of a calm lake. They convey a sense of grace, wisdom, and a touch of enchantment.

**Turquoise** A vibrant and captivating color reminiscent of the gemstone it is named after, turquoise eyes showcase a mix of blue and green tones. #### 4.0.10 Nose - Shapes

Among the distinguishing features of the face, the nose holds a significant role in defining a character's appearance. In this section, we explore the various shapes, sizes, and nuances of noses, uncovering how this subtle yet prominent feature can contribute to the overall characterization of your creation.

When creating a character, the choice of nose shape holds great importance in defining their appearance and personality. The selected nose shape adds depth and nuance to the character's visual portrayal, contributing to their overall characterization. Whether it's a straight nose, conveying a sense of balance and refinement, or a Roman nose, symbolizing strength and authority, each shape helps players envision their character's traits and role in the game world. By choosing a specific nose shape, players can bring their characters to life, aligning their physical features with their desired persona and enhancing the immersive experience of character creation.

- **Straight:** A nose with a straight bridge, often associated with elegance and symmetry. It portrays a sense of balance and can contribute to a refined and classic appearance.
- **Roman:** Also known as an aquiline nose, it has a prominent bridge with a slight downward curve. This shape can evoke a sense of strength, authority, and nobility.
- **Button:** Characterized by a small, rounded tip, the button nose exudes a charming and youthful appeal. It is often associated with cuteness, innocence, and a playful demeanor.
- **Upturned:** With a slightly upturned tip, this nose shape creates an appearance of perkiness and whimsy. It can add a touch of quirkiness or mischievousness to a character's countenance.
- **Snub:** The snub nose features a short and slightly upturned tip, often coupled with a slightly concave bridge. It can convey a sense of charm, impishness, or a hint of rebelliousness.
- **Greek:** Resembling the sculptures of ancient Greek gods, this nose shape has a straight bridge and a narrow, well-defined tip. It exudes an aura of elegance, grace, and timeless beauty.
- **Hawk:** Similar to the beak of a hawk, this nose shape has a prominent, curved bridge with a sharp downward angle. It can portray an assertive, confident, and strong-willed character.
- **Snorkel:** Unconventional and unique, the snorkel nose has an extended and protruding shape resembling a snorkel tube. It adds a distinctive and eccentric touch to a character's appearance.
- **Crooked:** Characterized by a noticeable deviation from a straight line, the crooked nose exhibits an asymmetrical shape. It can suggest a rugged, unconventional, or mysterious persona.
- **Flat:** Featuring a minimal bridge height, the flat nose has a broad and low profile. It is often associated with certain ethnicities and can convey a sense of heritage, cultural identity, or natural beauty.

#### 4.0.11 Nose - Sizes

In character creation, the size of the nose plays a significant role in shaping the character's visual identity. The chosen nose size can convey various attributes and characteristics, influencing how the character is perceived by others. A small nose may suggest delicacy, grace, or subtlety, while a large nose can imply strength, resilience, or even dominance. Players have the opportunity to carefully consider the impact of their character's nose size, ensuring it aligns with their envisioned persona and adds depth to their character's visual representation.

- **Small:** A small nose is delicate and petite in proportion to the face. It can convey a sense of gracefulness, refinement, or youthful innocence.
- **Medium:** A medium-sized nose is considered average in proportion to the face. It is versatile and can complement various facial features, providing a balanced and harmonious appearance.
- **Large:** A large nose is more prominent and commanding, drawing attention to the center of the face. It can suggest strength, character, and individuality.
- **Long:** A long nose extends vertically, with a noticeable length between the bridge and the tip. It can add an elegant and regal touch to a character's countenance.
- **Short:** A short nose is characterized by its reduced length, creating a compact and concise appearance. It can contribute to a youthful or cute expression.

#### 4.0.12 Nose - Nuances

The unique features of a character's nose are important elements in the character creation process. From the presence of a bridge bump or a nasal ridge to the absence of any pronounced features, these details contribute to the character's overall appearance and storytelling potential. A bridge bump can imply ruggedness or a history of battles fought, while a nasal ridge might signify a strong and resolute character. Conversely, a lack of notable features can add an air of simplicity or mystery to the character. By incorporating

these nose features into the character creation process, players can further customize their characters, adding depth and uniqueness to their narrative experiences.

- **Rounded:** A rounded nose has soft, curved contours, giving a gentle and approachable impression. It can convey warmth, friendliness, and a nurturing nature.
- **Angular:** An angular nose has sharp and well-defined features, with distinct lines and angles. It can suggest strength, determination, and a more assertive personality.
- **Tapered:** A tapered nose gradually narrows towards the tip, creating a sleek and refined appearance. It can add a touch of elegance and sophistication to a character's face.
- **Broad:** A broad nose has a wider shape, often with a more substantial base. It can convey a sense of strength, vitality, and resilience.
- **Pointed:** A pointed nose features a defined and sharp tip, adding a distinctive and slightly exotic element to a character's facial structure. It can evoke a sense of intrigue and allure.
- **Upward-Turned:** With an upward turn at the tip, this nose nuance creates a cheerful and optimistic expression. It can contribute to a character's cheerful, lively, or mischievous demeanor.
- **Downturned:** A downturned nose has a slight droop at the tip, creating a subtle melancholic or pensive look. It can suggest a reflective, introspective, or more serious disposition.
- **Upward-Bridge:** This nuance describes a nose with an elevated bridge, adding a distinctive feature to a character's facial structure. It can create a regal, refined, or statuesque appearance.
- **Flat-Bridge:** A flat bridge indicates a nose with a minimal or flattened nasal bridge. It can be associated with certain ethnicities or convey a unique and unconventional character.

### 4.0.13 Mouth

The mouth is a gateway to expression, communication, and emotion. It is a focal point of the face that can greatly influence the portrayal of a character. In this section, we delve into the captivating aspects of the mouth, including the shape of the lips, the positioning of the teeth, and the overall structure. Discover how the mouth can convey a wide range of feelings, add realism to your character, and further enhance the immersive experience of character creation.

### 4.0.14 Lip Shapes

The shape of the lips is a defining characteristic that can communicate various emotions and traits. From full and plump lips to thin and delicate ones, each shape adds depth and nuance to a character's appearance. Full lips can signify sensuality, confidence, or a bold personality, while thin lips may suggest subtlety, reservation, or a more reserved nature. By selecting a specific lip shape, players can visually express their character's disposition and evoke certain emotions within the game world, enhancing the interactive storytelling experience.

### 4.0.15 Teeth Positioning

The positioning of teeth can contribute to the overall aesthetic of a character's mouth and provide insights into their background or lifestyle. Whether it's perfectly aligned teeth, slightly crooked teeth, or even missing teeth, each positioning tells a story. Straight teeth may denote good oral hygiene and care, while crooked teeth might suggest a rugged or unconventional nature. Missing teeth can be indicative of a character's past battles or a harsh life. By considering the positioning of teeth, players can further develop their character's backstory and create a visually striking representation.

- **Straight:** Perfectly aligned teeth, indicating good oral hygiene and care.
- **Slightly Crooked:** Teeth with a slight misalignment, adding character and charm.
- **Overbite:** Upper front teeth overlapping the lower teeth, creating a unique and distinctive look.

- **Underbite:** Lower front teeth overlapping the upper teeth, conveying a strong or aggressive appearance.
- **Missing Teeth:** Gaps or missing teeth that imply a rugged past or difficult life experiences.
- **Fanged:** Prominent canine teeth that evoke a primal or vampiric aesthetic.

#### 4.0.16 Mouth Structure

The overall structure of the mouth encompasses various elements, such as the width, depth, and curvature of the lips, as well as the shape and prominence of the jawline. These aspects significantly impact a character's visual identity and can evoke different impressions. A wide and expressive mouth can convey openness, vitality, or even a mischievous nature. A narrower mouth may imply a more reserved demeanor or a hint of mystery. The prominence of the jawline can suggest strength, determination, or elegance. By carefully considering the structure of the mouth, players can fine-tune their character's appearance and enrich their narrative journey within the game.

- **Wide and Expressive:** A mouth with a generous width, capable of displaying a range of emotions with ease.
- **Narrow and Refined:** A more compact mouth with a slender width, suggesting a refined and reserved nature.
